

## A Message from the Founder

At Independence Plus, Inc. (IPI), we dedicate ourselves to providing the finest home care services available for pediatric and adult patients who need and deserve high quality in-home healthcare.

We know that the most effective healing and rehabilitation occurs at home—where people are surrounded by the life they know and the healthcare they require. We simplify the process by providing comprehensive services including: ventilators, catheters, physical therapy, speech therapy, private duty nursing, and respiratory equipment and services. This approach facilitates a more manageable experience for our patients and their families.

At IPI, we strive to prevent the complications that accompany the diagnoses we treat. We invest our time and energy into knowing each and every patient.

**TAMARA MÜLLER**

Founder and Administrator

## Skilled Private Duty Nursing

We provide hourly skilled nursing (RN, LPN, and CNA) services for adults and children. These well managed services enable our patients to thrive in their own homes, instead of being limited to living in a facility.

We specialize in the following diagnoses:

- Ventilator Dependence
- Tracheotomy Dependence
- Spinal Cord Injury
- Traumatic Brain Injury
- Catastrophic Illness/Injury
- Neuromuscular Diseases
- Pulmonary Complications
- Prematurity
- Birth Anomalies
- Cardiovascular Defects

## Respiratory Equipment and Services

IPI's licensed Respiratory Care Practitioners are the most knowledgeable in the industry. Our experience managing complex respiratory equipment needs of pediatric and adult patients at home, remains unsurpassed. We assist patients in their advancement to Home Ventilation with the following services:

- Home Ventilator Program
- Respiratory Therapy Equipment
- Tracheotomy Management
- Sleep Disorders Program
- Enteral Nutrition Program
- Oxygen and Supplies

Licensed Respiratory Care Practitioners (RCPs)  
providing patient care  
24 hours per day / 7 days a week.

Recipient of the Quality Respiratory Care Award from  
American Association for Respiratory Care (AARC)

## Skilled Home Healthcare Visits\*
